

Indiana Orthopaedic Hospital (IOH)

On March 1, 2005, OrthoIndy opened IOH to provide central Indiana residents with complete bone, joint, spine and muscle care in a patient-focused, like-home environment. IOH's philosophy follows a physician-owned hospital model, with the goal of providing the highest quality orthopaedic care. The physicians play the role of the patient advocate, personally deciding what type of treatment is most appropriate and beneficial, putting the care of their patients first and not focusing on the financial bottom line.

IOH has received national recognition from CareChex and Press Ganey Associates, Inc. For 2011, IOH is rated #1 in the Nation for Patient Safety for Major Orthopaedic Surgery by CareChex. In 2009 and 2010, IOH received the Press Ganey Summit Award for sustaining the highest level of customer satisfaction for three or more consecutive years. Receiving recognition of this magnitude demonstrates that IOH continues to raise the bar in the orthopaedic care provided to the community, state and Midwest.
